

You need:

- scissors
- a milk carton
- a stapler
- paper (2 colours)
- glue
- a hole punch
- pipe cleaners (or thin straws)
- felt-tip markers (to draw the eyes)

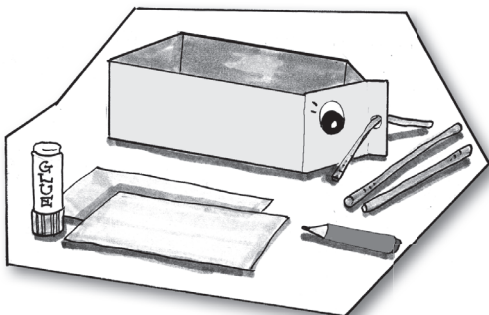

- 1** Cut one side out of a milk carton. (Look at the diagram so that you know which side to cut out.) Save the side because you will need it to make the handle. Staple the open spout closed.

- 3** Cut out a large piece of paper in the shape of the ears. (Use the same colour that you used to cover the carton.) Cut out smaller shapes in pink or another colour and glue them in the middle of the ears.

- 2** Cut the paper to fit the sides of the carton and then glue it on. Punch a hole in the centre of the spout and pull the pipe cleaners (or straws) through it to make the whiskers. Draw a pair of eyes.

- 4** Staple the ears to the carton. Cut the handle out of the leftover side, cover it with paper and staple it to the basket.
