When the candidate has stated whether s/he is for or against the issue, the examiner/teacher should discuss the issue with the candidate, using the points below to take the opposite view. The examiner/teacher does not need to use all of the points.

FOR technology bringing people closer
- We can reach any country in the world quickly and easily by plane.
- Mobile phones allow us to be contacted any time and any place.
• Internet means we can communicate cheaply and instantly with people all over the world. This is particularly useful for business.
• Social networks like facebook can put us in touch with people we have lost contact with.

AGAINST technology bringing people closer
• People are losing the ability to communicate face to face.
• People that we don’t want to communicate with can find us through social networks like facebook.
• Not everybody can afford to travel by plane.
• Internet and mobile phones can be addictive and have bad effects on our health.

Section 12 (1.5 minutes)

• Oh, I understand. So when do you think you’ll be able to start training again?

FOR using mobile phones on public transport
• It’s the only time some people have to talk to their friends on the phone.
• Some people make business calls while travelling to and from work.
• Children often need them to tell their parents what time to pick them up at a station.
• Some people pass the time on long journeys by using them to listen to music.

AGAINST the use of mobile phones on public transport
• It makes the bus/train ride less relaxing for all the passengers.
• Mobile phone signals can be bad for our health, so they shouldn’t be allowed in public places.
• Some passengers use their mobiles to play music, which annoys some people.
• Mobile phone use disturbs people who like to sleep or rest while travelling.

Continue reading from the EXAMINEE INFORMATION card: First you should look at the pictures below and ask these questions. (point to the three questions and give the candidate time to read them.)
Then continue reading aloud through the rest of the EXAMINEE INFORMATION card, pointing to the text so that the candidate can follow.
Do you have any questions? Candidate now asks questions to elicit information about the task/problem/option. Examiner/Teacher answers questions using information on the EXAMINER INFORMATION card. EXAMINER INFORMATION
Who the person is: My 12 year old brother, Nick
What the problem is: He plays electronic games after school when he is supposed to be doing his homework. I am in charge of him after school.
Possible solutions: Reward him - let him borrow your laptop on weekends to play computer games if he does his homework during the week.
Punish him – Tell Mum and Dad who will be very angry and worried
When the candidate asks about possible solutions, the examiner/teacher can remind the candidate about what they have to do with this information by saying something like, 'Okay, we have a couple of ideas, but you might have a better idea than these.' Remember that the examiner/teacher does quite a lot of talking in Stage 2.

Stage 3 (1–3 minutes)
(Expressing an opinion and supporting it)
In this stage the candidate shares her/his opinion and explains why s/he didn’t choose the other option. The candidate also answers any other questions that the examiner asks.

Stage 4 (2–4 minutes) (Elaborating on the topic)
The examiner asks the candidate an Elaboration question or a related question of their own so that the candidate can elaborate and expand on the topic. Remember that the Elaboration questions are graded in terms of difficulty with question 3 being the most difficult, 2 being less difficult and 1 being the least difficult. Sit back and give candidates time to explain their ideas.

Elaboration questions
1. Do you always do your homework? Why/Why not?
2. Where and with whom do you like to do your homework?
3. What is the value of homework?

Stage 1 (2-3 minutes)
